

PICK UP THE PACE IN LAKE COUNTRY

If excitement, thrills and the outdoors excite you, the Finger Lakes can satisfy any craving for a great adventure. The journey begins in Ontario County and your senses will be pushed to the limit while you're watching thoroughbreds zip around a racetrack, or you soar through the sky, plunge down a water slide, or plummet from the peaks of a mountain side.

Your heart will race as a thundercloud of hooves pound around the clubhouse turn at the **Finger Lakes Gaming and Racetrack**. With free admission and parking, climate-controlled elegance, and a full card of some of today's top thoroughbreds, you can bet on enjoying a day at the racetrack. Between races stop by the gaming floor where there are over 1,000 video gaming terminals, creating their own style of excitement.

Your heart rate won't be the only thing accelerating at the **Canandaigua Speedway** at the Ontario County Fairgrounds. From April through October some of the best drivers to ever command 700 plus-horsepower racing machines compete for prize money and pride at this great New York State dirt track.

One of the fastest growing touring options is aboard your motorcycle, and this area is set to help you out. **Geneva's Harley Davidson** shop, located on **Routes 5 and 20** hosts many events for the HOGS (Harley Owners Group), and is ready to introduce more people to this exciting way of getting around.

If you have the fortitude, you can jump from the mountaintop for an exhilarating **parasailing** adventure opposite Bristol Mountain. Even if you don't take the plunge, your heart will still pound just standing and watching others gracefully descend nearly 1,200 feet. Soaring through the air, free as you look out over the vast hills, one trip will not be enough. Other sailing options include **Canandaigua Sailboarding**. If you have the courage to race along thin ice on Canandaigua or Honeoye Lakes, try **iceboating** in the winter. You better be fast for this one!

Fast fun in the water can also be yours at **Roseland Waterpark** in Canandaigua. Jump in the fun at the largest water park in the Finger Lakes. Splash in the giant wave pool, the mammoth raft ride, slide down the extreme tube rides, and much more.

Boasting the highest vertical rise of any resort between the Catskills and the Rockies, **Bristol Mountain Winter Resort** has over 32 slopes and trails. Skiers and snowboarders happily coexist in racing down the mountain. Bristol also partners with local accommodations to offer affordable "Ski & Stay" packages to best fulfill your dream vacation.

To some, relaxation is the thrill and challenge of an outdoor sport; to others it's watching the speed and skill of professionals at work! Whatever your version of relaxation is, you can get it here!
